

Lucy W. Skelton
Senior Vice President

Lucy Skelton is a finance executive with extensive experience and progressive responsibilities in building and leading the finance and accounting functions within the financial services and financial technology industries. She has demonstrated success in high growth, dynamic business environments with proven ability to establish and transform business processes to maximize financial transparency and value-added financial evaluations for strategic management decisions and performance monitoring.

A CPA with an MBA in Finance, Ms. Skelton has over 25 years of experience in the financial services and financial technology arena. Her financial experience and expertise include strategic planning, financial modeling, financial management, SEC and regulatory reporting, mergers and acquisitions, business line and customer profitability analysis, functional cost benchmark analysis, system selection and implementation, budgeting and forecasting.

She also extends beyond the traditional finance and accounting roles to operations management and process improvement. Her system selection and implementation experience includes hands-on experience in implementing and maintaining Hyperion Essbase and Salesforce.com and consulting projects on selection and evaluation of financial services providers.

Throughout her career, Ms. Skelton has been recognized for her highly technical and analytical skills couple with the depth and breadth of her experience enabling her to assimilate data into meaningful information for decision support. She has the unique ability to simplify and prioritize complex financial issues or analyses into focused information for management decision making.

Most recently, Ms. Skelton was Vice President of Financial Planning and Analysis with S1 Corporation, a leader in enterprise software solutions for the financial services industry.

Other previous experience includes public accounting with Deloitte and Touche, Controller and Chief Financial Officer with Atlanta financial institutions and management consulting with Speer & Associates.
